

# PostBase mini

## ECONOMICAL MEETS BEST-IN-CLASS TECHNOLOGY

Introducing the FP PostBase Mini, the perfect compact mailing system for small businesses. Enjoy smooth, reliable postage imprinting at up to 17 letters per minute. You won't find a quieter, simpler meter in its class. Learn how PostBase Mini can benefit you.

FP-Francotyp – Made in Germany

### NEW LEVEL OF CHOICE

FP's PostBase brings color choice (optional) to a new level. The PostBase Mini's 2 kgs. integrated scale comes in five uniquely different colors so you can customize your PostBase to fit your office environment and personal style.

### MORE FLEXIBILITY

PostBase Mini connects easily to an external scale via free Navigator software, greatly expanding the ability to handle large package shipping.\*

\*Shipping Feature: The PostBase Mini can be used in combination with the FP MailOne CA (MOCA), parcel shipping solution. With MOCA you can have the address destination and barcode/tracker, printed on the shipping label thus allowing user access to the CPC discounted rates.

### EASY TO USE FEATURES

The hassle of downloading postage and rates is over! The PostBase Mini connects to the Internet (via LAN) for quick and easy postage downloads and electronic rate change updates. The first-of-its-kind color touch screen makes navigation simple and easy!
